RANGE HOOD

CXW-180-**E906TT**
T-shaped Range Hood

Product Type (Range Hood)

Hot-melt self-cleaning to free your hands

Intelligent high-temperature hot-melt cleaning function to clean more easily

Double chamber to clean out oil smoke

New fixed double chamber to double the smoke intake;

Gesture control providing cooking pleasure

Gesture control + linkage between range hood and cooker, enjoying easy cooking

Deflect smoke smoothly with pebble

Design the pebble deflector to deflect smoke smoothly

CXW-180-**E906T**
T-shaped Range Hood
Product Type (Range Hood)

Powerful smoke extraction with high air pressure

Powerfully extract smoke with high air pressure and DC frequency conversion technology

DC frequency conversion motor

New intelligent DC frequency conversion technology to intelligently regulate peak and adjust the suction power according to the smoke exhaustion, demonstrating invincible smoke exhaustion

CXW-180-**E971X**
All-in-one Cabinet & Range Hood
Product Type ⟩ Range Hood

The industry's first cabinet & range hood integrated machine

The industry's first submersible embedded range hood integrated with the cabinet

No place for smoke to escape in the golden smoke control zone

Intelligent automatic switching air intake to form a golden smoke control zone, providing no escape for smoke to escape

Convenient and efficient steam self-cleaning

Intelligent steam cleaning function for easier cleaning and regular use for longer service life

Intelligent linkage between hood airflow and cooking fire to provide a good meal

The hood airflow will be automatically adjusted according to the cooking fire, making operation easier and simpler without confusion
T-shaped Machine CXW-180-E971TF

Product Specifications

Size (W*D*H mm)	896*490*(715-970)
Accessories	Interior decoration cover
Accessory size	⌀170 smoke pipe
Air flow m3/min	19/26
Static pressure maximum Pa	1000
Gesture control	Yes
Linkage	Linkage between hood airflow and cooking fire/ between range hood and combi oven
Cleaning function	Steam cleaning

Functional Selling Points

1. New fixed double chamber to double the smoke intake;
2. Eagle-claw smoking zone design;
3. Powerfully extract smoke with high air pressure and DC frequency conversion technology;
4. Gesture control + linkage between hood airflow and cooking fire, enjoying easy cooking;
5. Intelligent high temperature steam cleaning function providing worry-free cleaning;
6. Linkage between range hood and combi oven (to be accompanied by a cooking center).

T-shaped Machine CXW-180-E906T

Product Specifications

Size (W*D*H mm)	896*490*(715-970)
Accessories	Interior and exterior decorative covers
Accessory size	⌀170 smoke pipe
Air flow m3/min	19/24
Static pressure maximum Pa	800
Gesture control	Yes
Linkage	Linkage between range hood and cooker
Cleaning function	Hot-melt cleaning

Functional Selling Points

1. New fixed rounded double chamber design with zoned smoking;
2. Design the pebble deflector to deflect smoke smoothly;
3. Powerfully extract smoke with high air pressure and DC frequency conversion technology;
4. Intelligent gesture control + linkage between range hood and cooker, enjoying easy cooking;
5. Intelligent high-temperature hot-melt cleaning function to clean more easily.

Side Suction Machine CXW-180-E971J

Product Specifications

Size (W*D*H mm)	896*430* (984-1264)
Accessories	Interior decoration cover
Accessory size	⌀170 smoke pipe Decorative cover: 420*311*525
Air flow m3/min	19/26
Static pressure maximum Pa	1000
Gesture control	Yes
Linkage	Linkage between hood airflow and cooking fire/ between range hood and combi oven
Cleaning function	Steam cleaning

Functional Selling Points

1. Two-section black crystal tempered glass, with flat and simple appearance, being easy to clean and effective in a wipe;
2. Super quiet DC frequency conversion motor in the cruise mode, to achieve the perfect integration of large suction power and super quietness, making the kitchen both clean and quiet;
3. Intelligent gesture control + linkage between hood airflow and cooking fire, providing convenient and comfortable personalized operation;
4. Intelligent high temperature steam cleaning function providing worry-free cleaning;
5. Linkage between range hood and combi oven (to be accompanied by a cooking center).
Side Suction Machine CXW-180-E906J

Product Specifications

Size (W*D*H mm)	896*430* (984-1264)
Accessories	Interior and exterior decorative covers
Accessory size	⌀170 smoke pipe Decorative cover: 421*312*445
Air flow m3/min	19/24
Static pressure maximum Pa	800
Gesture control	Yes
Linkage	Linkage between range hood and cooker
Cleaning function	Hot-melt cleaning

Functional Selling Points

1. Two-section black crystal tempered glass, with flat and simple appearance, being easy to clean and effective in a wipe;
2. Super quiet DC frequency conversion motor in the cruise mode, to achieve the perfect integration of large suction power and super quietness, making the kitchen both clean and quiet;
3. Intelligent gesture control + linkage between range hood and cooker.
4. Intelligent high-temperature hot-melt cleaning function to clean more easily.
T-shaped Machine CXW-258-E632T

Product Specifications

Size (W*D*H mm)	895*500* (628-1008)
Accessories	Interior and exterior decorative covers
Accessory size	⌀170 smoke pipe
Air flow m3/min	17/23
Static pressure maximum Pa	420
Gesture control	Yes
Linkage	None
Cleaning function	Hot-melt cleaning

Functional Selling Points

1. Smoke deflector design;
2. Stainless steel chamber for smoke extraction;
3. Gesture control and no need to touch the hood, providing easier operation.

T-shaped Machine CXW-258-E603T

Product Specifications

Size (W*D*H mm)	895*500* (628-1008)
Accessories	Interior and exterior decorative covers
Accessory size	⌀170 smoke pipe
Air flow m3/min	17/21
Static pressure maximum Pa	420
Gesture control	None
Linkage	None
Cleaning function	None

Functional Selling Points

1. The design of the deflector increases the smoking area and expands the negative pressure, strengthening the smoke extraction effect;
2. Stainless steel smoke chamber with glass panel, showing classic fashion.
Side Suction Machine CXW-258-E632J

Product Specifications

Size (W*D*H mm)	896*430* (984-1264)
Accessories	Interior and exterior decorative covers
Accessory size	⌀170 smoke pipe Decorative cover: 421*312*445
Air flow m3/min	18/23
Static pressure maximum Pa	420
Gesture control	Yes
Linkage	None
Cleaning function	Hot-melt cleaning

Functional Selling Points

1. Intelligent turnover structure enabling the glass panel to automatically flipping and providing high-end intelligent humanization experience;
2. Super quiet fan system to achieve the perfect integration of large suction power and super quietness, making the kitchen both clean and quiet;
3. Fully tempered glass, with succinct and decent appearance, being easy to clean and effective in a wipe;
4. Touch button control with stir frying and delay function, providing convenient and comfortable personalized operation;

Side Suction Machine CXW-258-E603J

Product Specifications

Size (W*D*H mm)	896*430* (984-1264)
Accessories	Interior and exterior decorative covers
Accessory size	⌀170 smoke pipe Decorative cover: 421*312*445
Air flow m3/min	18/21
Static pressure maximum Pa	420
Gesture control	None
Linkage	None
Cleaning function	None

Functional Selling Points

1. Intelligent turnover structure enabling the glass panel to automatically flipping and providing high-end intelligent humanization experience;
2. Super quiet fan system to achieve the perfect integration of large suction power and super quietness, making the kitchen both clean and quiet;
3. Fully tempered glass, with succinct and decent appearance, being easy to clean and effective in a wipe;
4. Touch button control with stir frying and delay function, providing convenient and comfortable personalized operation;
All-in-one Cabinet & Range Hood **CXW-180-E981X**

Product Specifications

|	
Size (W*D*H mm)	895*325*976
Accessories	Exterior decorative cover
Accessory size	⌀170 smoke pipe Decorative cover: 420*311*525
Air flow m3/min	18/22
Static pressure maximum Pa	800
Gesture control	None
Linkage	Linkage between hood airflow and cooking fire
Cleaning function	Hot-melt cleaning

Functional Selling Points

1. 7 inch TFT color screen touch control with video;
2. Recipes, music and other entertainment functions;
3. APP remote control, linkage between hood airflow and cooking fire, frequency conversion cruise mode, thermal cleaning and air change.

All-in-one Cabinet & Range Hood **CXW-180-E971X**

Product Specifications

|	
Size (W*D*H mm)	895*326.5*974
Accessories	Exterior decorative cover
Accessory size	⌀170 smoke pipe Decorative cover: 402*318*524
Air flow m3/min	18/25
Static pressure maximum Pa	1000
Gesture control	Yes
Linkage	Linkage between hood airflow and cooking fire/ between range hood and combi oven
Cleaning function	Steam cleaning

Functional Selling Points

1. The industry's first submersible embedded range hood integrated with the cabinet;
2. Intelligent gesture control + linkage between hood airflow and cooking fire, enjoying easy cooking;
3. Submerged air inlet with intelligent switching technology in the golden smoke control zone, closer to the smoke and easily coping with oil smoke from steaming and stir-frying;
4. Intelligent high temperature steam cleaning function providing worry-free cleaning;
5. Linkage between range hood and combi oven (to be accompanied by a cooking center).

All-in-one Cabinet & Range Hood **CXW-180-E632XA**

Product Specifications

Size (W*D*H mm)	896*345* (784-1164)
Accessories	Interior and exterior decorative covers
Accessory size	⌀170 smoke pipe Decorative cover: 400*317*495
Air flow m3/min	18/22
Static pressure maximum Pa	650
Gesture control	Yes
Linkage	None
Cleaning function	Hot-melt cleaning

Functional Selling Points

1. Large airflow and high static pressure;
2. Gesture intelligent control, easy to adjust the airflow without touching the hood;
3. Built-in hot-melt self-cleaning function;
4. Intelligent switching design and large smoke collection area;
5. Semi-embedded and installed flush with the cabinet;
6. Full DC frequency conversion motor with strong core power.

All-in-one Cabinet & Range Hood **CXW-238-CE632A**

Product Specifications

|	
Size (W*D*H mm)	896*345*(784-1164)
Accessories	Interior and exterior decorative covers
Accessory size	⌀170 smoke pipe Decorative cover: 400*317*495
Air flow m3/min	18/20
Static pressure maximum Pa	400
Gesture control	Yes
Linkage	None
Cleaning function	Hot-melt cleaning

Functional Selling Points

1. Large airflow and high static pressure;
2. Gesture intelligent control, easy to adjust the airflow without touching the hood;
3. Built-in hot-melt self-cleaning function;
4. Intelligent switching design and large smoke collection area;
5. Semi-embedded and installed flush with the cabinet.

All-in-one Cabinet & Range Hood **CXW-180-E906X**

Product Specifications

|	
Size (W*D*H mm)	896*350*600
Accessories	Exterior decorative cover
Accessory size	⌀170 smoke pipe Decorative cover: 402*318*520
Air flow m3/min	19/24
Static pressure maximum Pa	800
Gesture control	Yes
Linkage	Linkage between range hood and cooker
Cleaning function	Hot-melt cleaning

Functional Selling Points

1. Fully integrated appearance design, integrated perfectly with the cabinet;
2. Intelligent electric switching design;
3. Powerfully extract smoke with high air pressure and DC frequency conversion technology;
4. Intelligent gesture control + linkage between range hood and cooker, enjoying easy cooking;
5. Intelligent high-temperature hot-melt cleaning function to clean more easily.

All-in-one Cabinet & Range Hood **CXW-258-E611XA**

Product Specifications

Size (W*D*H mm)	896*350*600
Accessories	Exterior decorative cover
Accessory size	⌀170 smoke pipe Decorative cover: 402*318*520
Air flow m3/min	18/22
Static pressure maximum Pa	420
Gesture control	Yes
Linkage	None
Cleaning function	Hot-melt cleaning

Functional Selling Points

1. Seamless deep-drawn smoke collection chamber with excellent smoke collection capacity, effectively preventing the escape of oil smoke;
2. Seamless smoke collection chamber providing no room for oil smoke to escape, beautiful and easy to cleaned;
3. Smooth air inlet and efficient oil filtration without oil blockage or dripping;
4. Touch button control with stir frying and delay function, providing convenient and comfortable personalized operation;
5. Intelligent turnover structure enabling the glass panel to automatically flipping and providing high-end intelligent humanization experience.

All-in-one Cabinet & Range Hood **CXW-120-E639XA**

Product Specifications

Size (W*D*H mm)	896*348*(900-1180)
Accessories	Interior and exterior decorative covers
Accessory size	⌀170 smoke pipe Decorative cover: 353*322*450
Air flow m3/min	18/22
Static pressure maximum Pa	650
Gesture control	Yes
Linkage	Linkage between range hood and cooker
Cleaning function	Hot-melt cleaning

Functional Selling Points

1. The industry's first semi-embedded range hood perfectly integrated with the cabinet;
2. Black appearance integrated with the cupboard and the wall cabinet, clean and tidy, with which you can enjoy a minimalist life;
3. Touch control with the functions including frequency conversion frying, hot-melt cleaning, air exchange, linkage between range hood and cooker, providing user-friendliness;
4. Intelligent automatic switching the smoking port in the golden smoke control zone, easily coping with oil smoke from steaming and stir-frying.

Island Range Hood **CXW-200-26Z1800**

Product Specifications

Size (W*D*H mm)	1800*734*1200
Accessories	Interior and exterior decorative covers
Accessory size	⌀185 smoke pipe Decorative cover: 443*319*539
Air flow m3/min	21
Static pressure maximum Pa	≤870
Gesture control	None
Linkage	None
Cleaning function	None

Functional Selling Points

1. Imported 304 stainless steel and 1mm extra thick steel plate;
2. Integrally-moulded stainless steel without damaging the protective film on the surface of stainless steel;
3. 21 cubic meters with the super static pressure of 870 Pa, free adjustment of 25 speeds.
4. Frequency conversion motor.
Island Range Hood **XW-200-26T1200**

Product Specifications

Size (W*D*H mm)	1200*500*(851-1105)
Accessories	Interior and exterior decorative covers
Accessory size	⌀185 smoke pipe Decorative cover: 444*308.8*250
Air flow m3/min	21
Static pressure maximum Pa	≤870
Gesture control	None
Linkage	None
Cleaning function	None

Functional Selling Points

1. Imported 304 stainless steel and 1mm super thick steel plate, without damaging the surface protection film, 280 chord arc processes without polishing, and integrally-moulded stainless steel;
3. 21 cubic meters with the super static pressure of 870 Pa for smooth smoke flow;
3. 1.2m wide European range hood with large deep chamber.

KITCHEN COOKER

Kitchen Appliances Series   Cooker

Double-layered energy-gathering cover, efficient in energy saving

≥70% high thermal efficiency, energy saving and environmentally friendly

7-stage fire control for precision and practicality

7-stage fire control with strong high fire, stable medium fire and enough small fire

Free timed flameout without worries

bilateral timing [up to 180 minutes], reducing the time spent in the kitchen

Easy-to-clean panel

Linkage between range hood and cooker and super easy-clean glass panel

JZY/T-Q906G

Product Type (Gas Cooker)

OPPEIN

Integrated straight-rotary outer ring fire cover

More even heating of the pan bottom with higher thermal efficiency

No delay in ignition and no need to wait for food

Double protection covers,
100% ignition success rate

Double the flavour with a 3D fierce fire

68
fire outlets
concentrating energy

8-way
oxygen supply tank for oxygen
enriching low-carbon combustion

8
staged combustion for
a more even fire

Double flame construction, efficient copper flame cap

Effectively prevents fire hole blockage, heat load up to 5KW, high temperature and corrosion resistance

Level 1 energy efficiency and high efficiency direct fire!

Thermal efficiency ≥ 70%. National Level 1 energy efficiency standard. The higher the thermal efficiency, the higher the energy conversion rate! Strong high fire, stable medium fire and enough small fire.

High efficiency aluminium alloy burners with upgraded power

Keeping your cooking safe

Hidden ignition structure

Prevent contamination of the ignition needle thermocouple,
Prevent blockage of the flash hole,
Prevent automatic flame failure.

Fully enclosed liquid collecting tray

No soup seeping into the cooker,
Safer use of fire,
More durable cabinets,
Easier cleaning.

3-fold explosion-proof panel

Eliminate the risk of explosion,
Durable panel with high quality texture!

Intelligent automatic flameout

No delay in ignition and automatic gas cut-off for accidental flame failure,
Ensure safety!

Gas Cooker JZY/T-Q981GA

Product Specifications

Panel size (L*W mm)	780*450
Hole size	703*403
Firepower	20Y:4.5KW 12T:5.0KW
Energy efficiency/ thermal efficiency	Level 1/63%
Linkage between hood airflow and cooking fire	√
Timer	√
Intelligence	Anti-dry burning, WIFI, mobile smart control app

Functional Selling Points

1. AI cooking with intelligent recipes to automatically identify frying, boiling, stewing, and steaming;
2. Timing function and professional frying temperature customization function;
3. Sensing function of the pan bottom and high temperature frying mode;
4. Over-temperature oil reminder and automatic flameout control to prevent burnt food and dry burning;
5. Intelligent timer to turn off the fire;
6. Linkage between hood airflow and cooking fire, and WIFT.
Gas Cooker JZY/T-Q971G

Product Specifications

Panel size (L*W mm)	820*460
Hole size	700*400,R20
Firepower	20Y:4.5KW 12T:5.0KW
Energy efficiency/ thermal efficiency	20Y:65%, 12T:66%
Linkage between hood airflow and cooking fire	√
Timer	√
Intelligence	Dry burning-resistant

Functional Selling Points

1. ≥66% thermal efficiency, super Level 1 energy efficiency, no delay in ignition and delayed discharge;
2. Intelligent anti-dry burning, bilateral timing and easy-to-clean glass panel;
3. Precision control of 11-stage fire, low battery alarm and linkage between hood airflow and cooking fire;
4. Integrated energy gathering pot holder;
5. Easy-to-clean glass panel.
Gas Cooker JZY/T-Q906G

Product Specifications

Panel size (L*W mm)	780*450
Hole size	700*400,R20
Firepower	20Y:4.5KW 12T:5.0KW
Energy efficiency/ thermal efficiency	Super Level 1/70%
Linkage between hood airflow and cooking fire	√
Timer	√
Intelligence	/

Functional Selling Points

1. ≥70% thermal efficiency, no delay in ignition and delayed discharge;
2. Precision control of 7-stage fire and bilateral timing [up to 180 minutes];
3. Linkage between range hood and cooker, easy-clean glass panel and double-layer energy gathering pot holder;
4. Easy-to-clean glass panel.
Gas Cooker JZY/T-Q632GA

Product Specifications

Panel size (L*W mm)	780*450
Hole size	700*400,R20
Firepower	20Y:4.5KW 12T:5.0KW
Energy efficiency/ thermal efficiency	Level 1/63%
Linkage between hood airflow and cooking fire	/
Timer	/
Intelligence	/

Functional Selling Points

1. ≥70% thermal efficiency, no delay in ignition and delayed discharge;
2. Precision control of 7-stage fire and bilateral timing [up to 180 minutes];
3. Linkage between range hood and cooker, easy-clean glass panel and double-layer energy gathering pot holder;
4. Easy-to-clean glass panel.

Gas Cooker   JZT-BD4-23C2

Product Specifications

Panel size (L*W mm)	1020*400
Hole size	1010*360.R6
Firepower	12T: left & right 5.2KW, middle: 2.2KW
Energy efficiency/ thermal efficiency	Level 1/65%
Linkage between hood airflow and cooking fire	/
Timer	/
Intelligence	/

Functional Selling Points

1. Four burners, enabling the combination of Chinese and Western cooking;
2. Strong high fire and enough small fire, enabling you to cook as you like;
3. Wide panel with multiple dishes cooking at the same time, which is time-saving and efficiency.

Gas Cooker   JZT-Q992G

Product Specifications

Panel size (L*W mm)	860*450
Hole size	760*400, R10
Firepower	12T: left & right 4.8KW, middle: 1.5KW
Energy efficiency/ thermal efficiency	Level 1/63%
Linkage between hood airflow and cooking fire	/
Timer	/
Intelligence	/

Functional Selling Points

1. Three burners, strong high fire and enough small fire, enabling you to cook as you like;
2. Wide panel with multiple dishes cooking at the same time, which is time-saving and efficiency;
3. Full upper air inlet aluminium burner, thus no need to worry about whether the cupboard has an air inlet.

Gas Electric Cooker   JZDT/Y-Q629G

Product Specifications

Panel size (L*W mm)	780*450
Hole size	703*403,R15
Firepower	12T: left 5.0KW, right: 2.0KW 20Y: 4.5KW, right: 2.0KW
Energy efficiency/ thermal efficiency	Level 1/63%
Linkage between hood airflow and cooking fire	/
Timer	√
Intelligence	/

Functional Selling Points

1. Gas-electric dual mode structure to cook the soup on the left burner and stir-fry on the right burner;
2. High efficiency induction cooker with precise 7-grade heat adjustment;
3. Intelligent timer off the fire of the left burner, with 199 minutes long timing;
4. 225° wideband fire adjustment on the right burner for more precise fire control;
5. Fully closed installation structure preventing soup and cleaning water from penetrating into the interior of the cooker and the cabinet;
6. Intelligent flameout protection, no delay in ignition, and automatic gas cut-off in case of the accidental flameout to ensure safety;
7. Stable squared quadripod structured pot holder.

Gas Electric Cooker   JZDT/Y-Q618G

Product Specifications

Panel size (L*W mm)	760*430
Hole size	650*350,R15
Firepower	12T: left 4.5KW, right:2.0KW 20Y: 4.2KW, right: 2.0KW
Energy efficiency/ thermal efficiency	Level 1/63%
Linkage between hood airflow and cooking fire	/
Timer	√
Intelligence	/

Functional Selling Points

1. Gas-electric dual mode structure to cook the soup on the left burner and stir-fry on the right burner;
2. High efficiency induction cooker with multiple cooking modes provided;
3. All-aluminium burner and stepless adjustable fire, enabling you to cook as you like;
4. Fully closed installation structure preventing soup and cleaning water from penetrating into the interior of the cooker and the cabinet;
5. Intelligent flameout protection and automatic gas cut-off in case of the accidental flameout to ensure safety;
6. Beautiful round positioning-type pot holder, preventing the pot from slipping off.

Gas Cooker   JZY/T-Q603G

Product Specifications

|	
Panel size (L*W mm)	720*420
Hole size	630*330,R20
Firepower	4.5KW, Both burners
Energy efficiency/ thermal efficiency	Level 1/63%
Linkage between hood airflow and cooking fire	/
Timer	/
Intelligence	/

Functional Selling Points

1. Level 1 energy efficiency, energy efficiency, environmental protection, no delay in ignition and delayed discharge;
2. Clean aluminium alloy burners with anti-corrosion and high temperature resistance, easy to clean;
3. Triple explosion-proof tempered glass panel with durabile quality.

Gas Cooker   JZT/Y-Q630S

Product Specifications

|	
Panel size (L*W mm)	780*450
Hole size	680*380, R20
Firepower	20Y:4.5KW, 12T:5.0KW
Energy efficiency/ thermal efficiency	Level 1/63%
Linkage between hood airflow and cooking fire	/
Timer	/
Intelligence	/

Functional Selling Points

1. Large stainless steel panel;
2. Split-type full copper fire cover holder, easy to disassemble and clean;
3. No delay in ignition and delayed discharge.

Gas Electric Cooker   CS34-I704

Product Specifications

Panel size (L*W mm)	780*450
Hole size	703*403,R15
Firepower	Rated power: 3.4KW (left 2.0KW+2.6KW) Plug specification: 16A
Energy efficiency/ thermal efficiency	Level 2
Linkage between hood airflow and cooking fire	/
Timer	√
Intelligence	/

Functional Selling Points

1. Induction cooker with dual-eye intelligent control;
2. Alloy edge-wrapped tempered glass panel;
3. 199 minutes long timing;
4. Dual mode of power and temperature, and mutual control of dual-eye power.

Gas Electric Cooker   C20-I703

Product Specifications

Panel size (L*W mm)	325*450
Hole size	290*403,R15
Firepower	Rated power: 2.0KW Plug specification: 10A
Energy efficiency/ thermal efficiency	Level 2
Linkage between hood airflow and cooking fire	/
Timer	√
Intelligence	/

Functional Selling Points

1. Alloy edge-wrapped tempered glass panel;
2. Intelligent flameout protection;
3. 199 minutes long timing;
4. Dual mode of power and temperature, and a wider choice of functions.

KITCHEN COOK CENTER

Integrated Cook Center

It is known as a space magician, integrating the range hood, cooker, combi oven, and storage in an area of 1 square meter, a one-stop cooking platform and a one-meter moving-line-to-save space, demonstrating that a small kitchen is also of great use. It also blends perfectly with the cabinet to create a magic kitchen.

The range hood has an air pressure of 1,000 Pa, the cooker has a large 5.0 KW fire with super Level 1 energy efficiency and the combi oven has a large capacity of 66 L. With the linkage functions between hood airflow and cooking fire and between range hood and combi oven, you can experience now what your kitchen will look like in the next 5 years.

QSK971G1-JC

All-in-one cabinet & range hood of great use

One-stop integrated cooking center for better space utilisation

Full upper air intake for high combustion efficiency

Full upper air intake combustion system with intelligent anti-dry burning monitoring for safety and efficiency

Super intelligent linkage between hood airflow and cooking fire

Linkage between hood airflow and cooking fire/ between range hood and combi oven with rear steam outlet opened

Integrated Cook Center QSK971G1-JC

Product Specifications

Cooker

Size (L*W mm)	800*460
Hole size	700*400, RO
Firepower	12T:5.0KW, 20Y:4.5KW
Energy efficiency/ thermal efficiency	12T:68%, 20Y:65%
Linkage	Linkage between hood airflow and cooking fire/ between range hood and combi oven
Intelligence	Dry burning-resistant

Combi Oven

Size (W*H*D mm)	800*455*525
Embedded size (W*H*D mm)	764*450*560 (upper fastening: 5 mm, lower fastening: 0)
Inner liner capacity (L)	66
Inner liner material	Nano ceramics
Heating method	Steam+heating pipe
Intelligent recipes	

Functional Selling Points

Cooker

1. New full upper air intake structure and intelligent anti-dry burning;
2. Super Level 1 thermal efficiency: LPG ≥ 65%, natural gas ≥ 68%;
3. Bilateral timing and precision control of 11-stage fire;
4. Easy-to-clean glazed glass;
5. Double-layer energy gathering ring;
6. Linkage between hood airflow and cooking fire/ between range hood and combi oven, to quickly coping with oil smoke.

Combi Oven

1. Easy-to-clean nano ceramic liner for steaming and baking;
2. 66L-capacity combi oven providing more space;
3. Precise temperature control within 1 degree;
4. External circulation air-cooling system, effectively protecting cabinets;
5. High temperature steam of 105℃;
6. Drying and air exchange functions.

KITCHEN
COMBI OVEN

Kitchen Appliances Series   Combi Oven

ST55-SK971

Product Type Combi Oven

Multiple cooking modes for you to enjoy diverse tastes

10 modes of steaming and baking

Easy operation, turning you into a food blogger in seconds
Precision temperature control within 1 degree and multi-layer simultaneous cooking

Quickly prepare food for the whole family without a break

Large intelligent screen with cool flashing coloured marquee

Provide a fun and exciting experience to enjoy every moment of food

Steamer **JZY/T-Q981GA**

Product Specifications

Size (W*H*D mm)	595*455*532
Embedded size (W*H*D mm)	564*450*550
Inner liner capacity (L)	48
Inner liner material	SUS304
Heating method	Steam
Intelligent recipes	40

Functional Selling Points

1. 45L large capacity, variable capacity, quick heating and TFT display;
2. 40 recipes provided for easy cooking;
3. New DIY player mode for you to cook as you like;
4. No drip from the top, no water on the bottom, thus easy to clean;
5. Drying and air exchange functions to remove moisture and odour from the chamber.
Roaster Oven **KWS260-K981**

Product Specifications

Size (W*H*D mm)	595*455*532
Embedded size (W*H*D mm)	564*450*550
Inner liner capacity (L)	45
Inner liner material	Enamel
Heating method	Heating pipe
Intelligent recipes	40

Functional Selling Points

1. Intelligent wet baking, steam water film wrapping technology and TFT display;
2. 10 baking functions and 40 delicate recipes provided for easy cooking;
3. Independent upper and lower temperature control, double-layer heating and precise temperature control;
4. The chamber and baking tray are treated with the porcelain process;
5. Diagonal temperature sensing with a wide range of areas to achieve multi-point temperature monitoring;
6. 3 seconds intelligent lifting and fast switching, adopting high technology.

Steamer **ST48-S971**

Product Specifications

Size (W*H*D mm)	595*455*565
Embedded size (W*H*D mm)	564*450*550 (upper fastening: 5 mm, lower fastening: 0)
Inner liner capacity (L)	59
Inner liner material	SUS304
Heating method	Steam+heating coil
Intelligent recipes	30

Functional Selling Points

1. Fill the upper water tank without opening the door, and the alarm will pop up automatically when the water tank is short of water;
2. Large LED screen, easy to operate; LED lighting to witness the food cooking;
3. Precise temperature control and multi-layer cooking, with simple and efficient operation;
4. Dynamic flashing coloured marquee;
5. Double-barrel direct steam heating;
6. High temperature steam of 105℃.
Roaster Oven **KWS240-K971**

Product Specifications

Size (W*H*D mm)	595*595*550
Embedded size (W*H*D mm)	564*592*550 (upper fastening: 3 mm, lower fastening: 0)
Inner liner capacity (L)	60
Inner liner material	Ceramic
Heating method	Heating pipe
Intelligent recipes	30

Functional Selling Points

1. 3D double fan hot air circulation grill, with layers of the same temperature;
2. LED color screen with flashing coloured marquee and more intelligent human-machine interaction, providing more wonderful visual experience;
3. 8 cooking modes, temperature adjustment between 50-240℃, enabling you to make Michelin dishes at home;
4. Large 60L capacity and multi-layer cooking, with which party can also be easily handled.
Combi Oven **ST45-SK981**

Product Specifications

Size (W*H*D mm)	595*455*532
Embedded size (W*H*D mm)	564*450*550
Inner liner capacity (L)	45
Inner liner material	Enamel
Heating method	Steam+heating pipe
Intelligent recipes	47

Functional Selling Points

1. German black Schott glass panel, exquisite door handle and TFT colour screen;
2. Integration space with 11 steaming and baking functions to meet the different cooking needs of users;
3. 38-120℃ steam frequency temperature control and 360°5D hot air circulation system;
4. Automatic recycling of residual water to prevent bacteria breeding;
5. 3 seconds intelligent lifting and fast switching, adopting high technology.
Combi Oven **ST55-SK971**

Product Specifications

Size (W*H*D mm)	595*455*565
Embedded size (W*H*D mm)	564*450*550 (upper fastening: 5 mm, lower fastening: 0)
Inner liner capacity (L)	55
Inner liner material	Nano ceramics
Heating method	Steam+heating pipe
Intelligent recipes	50

Functional Selling Points

1. Fill the upper water tank without opening the door, and the alarm will pop up automatically when the water tank is short of water, which is intelligent and convenient;
2. 10 cooking modes for steaming and baking, helping you make all kinds of dishes with ease;
3. Precise temperature control within 1℃ and multi-layer cooking, efficient and energy-saving;
4. LED color screen with flashing coloured marquee and more intelligent human-machine interaction, providing more wonderful visual experience;
5. Double-barrel direct steam heating;
6. High temperature steam of 115℃.

Steamer ST48-S906A

Product Specifications

Size (W*H*D mm)	595*455*565
Embedded size (W*H*D mm)	564*450*550 (upper fastening: 5 mm, lower fastening: 0)
Inner liner capacity (L)	48
Inner liner material	SUS304
Heating method	Steam+heating pipe
Intelligent recipes	30

Functional Selling Points

1. High temperature steam to retain fresh flavor;
2. 9.8 inch easy-to-operate large touch screen;
3. Drying and air exchange functions, removing the odour in the inner liner;
4. 30 intelligent menus, providing quick and easy operation;
5. Top-mounted electric water tank with high space utilisation, automatic opening of the water tank in case of the water shortage, and no need to open the door to add water during cooking;
6. Large 48L capacity and multi-layer cooking, meeting the need of cooking multiple dishes at the same time.
Roaster Oven KWS240-K906B

Product Specifications

Size (W*H*D mm)	595*595*550
Embedded size (W*H*D mm)	564*592*550 (upper fastening: 3 mm, lower fastening: 0)
Inner liner capacity (L)	60
Inner liner material	Ceramic
Heating method	Heating pipe
Intelligent recipes	30

Functional Selling Points

1. 8 baking modes to meet different users' needs;
2. 3D hot air circulation system, with layers of the same temperature;
3. Precise temperature control device and temperature range between 50-240℃, to meet all baking needs;
4. Precise temperature control within 1℃ , making it easy to control the temperature and always maintain the best cooking temperature of food;
5. Full touch switch control + 9.8 inch LED screen, making it easy to operate and easy to understand the working status;
6. Large 60L capacity and multi-layer cooking, meeting the need of cooking multiple dishes at the same time.

Western Kitchen Steamer ST26-S901

Product Specifications

Size (W*H*D mm)	595*388*375
Embedded size (W*H*D mm)	564*385*400 (upper fastening: 3 mm, lower fastening: 0)
Inner liner capacity (L)	26
Inner liner material	SUS304
Heating method	Steam
Intelligent recipes	/

Functional Selling Points

1. 26L electric steamer with direct steam and fast steam output, locking the food moisture and nutrition;
2. Auxiliary heating coil and cooking without dripping, to maintain the colour and flavor;
3. Built-in water tank structure;
4. Automatic time and temperature adjustment with one key, enabling you to enjoy the delicious food;
5. Small-size steamer can be easily integrated into western kitchen cabinets.
Western Kitchen Steamer KWS145-K901

Product Specifications

Size (W*H*D mm)	595*388*375
Embedded size (W*H*D mm)	564*385*400
Inner liner capacity (L)	26
Inner liner material	SUS304
Heating method	Heating pipe
Intelligent recipes	/

Functional Selling Points

1. 26L electric oven with independent upper and lower heating function, providing more professional cooking service;
2. Auxiliary heating coil and cooking without dripping, to maintain the colour and flavor;
3. Automatic time and temperature adjustment with one key, enabling you to enjoy the delicious food;
4. Small-size steamer can be easily integrated into western kitchen cabinets.
Combi Oven ST48-SK906A

Product Specifications

Size (W*H*D mm)	595*455*565
Embedded size (W*H*D mm)	564*450*550 (upper fastening: 5 mm, lower fastening: 0)
Inner liner capacity (L)	48
Inner liner material	SUS304+ Cceramics
Heating method	Steam+heating pipe
Intelligent recipes	50

Functional Selling Points

1. Easy-to-clean nano ceramic inner liner;
2. 4 modes and 16 functions;
3. 9.8 inch easy-to-operate large touch screen;
4. Drying and air exchange functions, removing the odour in the inner liner;
5. 50 intelligent menus, providing quick and easy operation;

Western Kitchen Combi Oven ST26-SK901

Product Specifications

Size (W*H*D mm)	595*388*375
Embedded size (W*H*D mm)	564*385*400
Inner liner capacity (L)	26
Inner liner material	SUS304
Heating method	Steam+heating pipe
Intelligent recipes	/

Functional Selling Points

1. 26L electric combi oven with direct steam and fast steam output, locking the food moisture and nutrition;
2. Cook food by the combination of steaming and baking, providing more professional cooking service and maintaining the food colour and flavor;
3. Built-in water tank structure;
4. Automatic time and temperature adjustment with one key, enabling you to enjoy the delicious food;
5. Small-size steamer can be easily integrated into western kitchen cabinets.
Western Kitchen Steamer ST48-S906C-XC

Product Specifications

Size (W*H*D mm)	595*535*350
Embedded size (W*H*D mm)	564*530*350 (upper fastening: 5 mm, lower fastening: 0)
Inner liner capacity (L)	48
Inner liner material	SUS304
Heating method	Steam+heating pipe
Intelligent recipes	15

Functional Selling Points

1. External water tank. No need to open the door to add water during cooking, constant temperature and water shortage alarm;
2. LED lighting and LCD screen, with simple operation;
3. Precise temperature control and multi-layer cooking, with simple and efficient operation;
4. 48L capacity. The small size of the western kitchen can also be used for cooking.
Western Kitchen Steamer KWS260-K906C-XC

Product Specifications

Size (W*H*D mm)	595*535*350
Embedded size (W*H*D mm)	595*535*350 (upper fastening: 5 mm, lower fastening: 0)
Inner liner capacity (L)	48
Inner liner material	SUS304
Heating method	Upper and lower heating pipe + fan
Intelligent recipes	15

Functional Selling Points

1. Characteristic air frying function;
2. 3D hot air circulation with more uniform temperature control;
3. LED lighting, LCD display;
4. Large capacity of 48L, for free cooking in the small western kitchen.
Western Kitchen Combi Oven ST48-SK906C-XC

Product Specifications

Size (W*H*D mm)	595*535*350
Embedded size (W*H*D mm)	595*535*350 (upper fastening: 5 mm, lower fastening: 0)
Inner liner capacity (L)	48
Inner liner material	SUS304
Heating method	Steam + upper and lower heating pipe + fan
Intelligent recipes	30

Functional Selling Points

1. No need to open the door to fill the external water tank, water shortage alarm;
2. Special air frying function;
3. LED lighting and LCD screen;
4. 48L capacity. The small size of the western kitchen can also be used for cooking.
5. Precise temperature control and multi-layer cooking.

DISINFECTION CABINET AND DISHWASHER

Kitchen Appliances Series   Disinfection Cabinet/ Dishwasher

Disinfection Cabinet D120-A632B

Product Specifications

Size (W*H*D mm)	595*640*520
Embedded size (W*H*D mm)	564*625*560
	(upper fastening: 5 mm, lower fastening: 10 mm)
Capacity (L)	120
Disinfection method	Low temperature
Disinfection level	Two-star

Functional Selling Points

1. Two-star disinfection;
2. 120L capacity with external rail;
3. Photo plasma + UV disinfection, no odour;
4. Three internal drawers.

Disinfection Cabinet ZTD100-A603

Product Specifications

Size (W*H*D mm)	595*595*465
Embedded size (W*H*D mm)	564*575*560
	(upper fastening: 14 mm, lower fastening: 6 mm)
Capacity (L)	100
Disinfection method	Low temperature
Disinfection level	Two-star

Functional Selling Points

1. Two-star disinfection;
2. 120L capacity with external rail;
3. Lightwave and UV disinfection, no odour.
Dishwasher DW60-D603X

Product Specifications

Size (W*H*D mm)	552*438*518
Embedded size	564*445*560
Capacity (L)	6 sets
Drying method	Waste heat drying
sterilization/ anti-bacterial method	/
Minimum time for quick washing	29
Number of dishwashing modes	5

Functional Selling Points

1. Small size, 6 sets of large capacity;
2. Integrated sink package with under-basin installation;
3. Customisable cabinet doors.
Dishwasher DW60-D632X

Product Specifications

Size (W*H*D mm)	562*455*555
Embedded size	564*458*560
	(upper fastening: 0, lower fastening: 16 mm)
Capacity (L)	8 sets
Drying method	PTC hot air drying
sterilization/ anti-bacterial method	/
Minimum time for quick washing	29
Number of dishwashing modes	4

Functional Selling Points

1. Small size, 6 sets of large capacity;
2. Integrated sink package with under-basin installation;
3. Customisable cabinet doors.
Disinfection Cabinet ZTD120-A505

Product Specifications

Size (W*H*D mm)	595*640*520
Embedded size (W*H*D mm)	564*625*550
	(upper fastening: 5 mm, lower fastening: 10 mm)
Capacity (L)	120
Disinfection method	Low temperature +120° High temperature
Disinfection level	Two-star

Functional Selling Points

1. Two-star disinfection, high and low temperature disinfection;
2. 120L capacity with external rail;
3. 201 stainless steel bowl basket.
Cleaning Cabinet ZTD65-A600

Product Specifications

Size (W*H*D mm)	360*583*512
Embedded size (W*H*D mm)	364*589*560
Capacity (L)	65
Disinfection method	Low temperature
Disinfection level	/

Functional Selling Points

1. PTC hot air drying, cleanliness keeping, UV sterilization;
2. 65L capacity for storage of chopping boards, knives and cookware;
3. Fresh air storage;
4. Fully embedded installation with customisable cabinet doors.

Embedded Refrigerator   **BCD-255W-CB626**

Product Specifications

Size (W*H*D mm)	540*540*1770
Cooling mode	Air cooling
Capacity (L)	255
Refrigerating/freezing capacity	184/71
Refrigerating capacity	2.0Kg/12h
Total power consumption	0.8kw.h/24h

Functional Selling Points

1. 255L capacity, refrigerated freezer;
2. Level 2 energy efficiency;
3. Fully embedded installation with customisable cabinet doors.
Red Wine Shelf   **JC236-J638**

Product Specifications

Size (W*H*D mm)	595*1785*557
Embedded size (W*H*D mm)	564*1770*560
Cooling mode	Air cooling
Capacity (L)	236
Refrigerating/freezing capacity	236/0
Refrigerating capacity	/
Total power consumption	0.59kw.h/24h

Functional Selling Points

1. 236L capacity for 75 bottles of wine;
2. Level 2 energy efficiency;
3. Intelligent dual temperature zones for precise temperature control.
Western Kitchen Red Wine Shelf   **JC100-J906-XC**

Product Specifications

Size (W*H*D mm)	590*1187*400
Embedded size (W*H*D mm)	564*1164*380
Cooling mode	Air cooling
Capacity (L)	100
Refrigerating/freezing capacity	100/0
Refrigerating capacity	/
Total power consumption	0.45kW · h/24h

Functional Selling Points

1. 100L capacity, refrigerator;
2. Level 1 energy efficiency;
3. Railed beech wood shelves and beech wood drawer for storing wine, tea and other items.

SINK
FAUCET

Kitchen Accessories Sink/ Facet

Prague PS317A

Product Specifications

Main material	SUS304
Size (H*W*D mm)	460*420*200
Surface treatment	Wire drawing
Hole size above counter basin	440*400*R20
Hole size below counter basin	420*380*R20
Package configuration	ST1001+X037A

Functional Selling Points

1. Small size single sink, designed for small households / dining cabinets and other special scenarios;
2. Mercerization treatment, providing delicate and noble appearance;
3. Silence effect, noise reduction and vibration reduction with the silencing pad;
4. Posterior drainer set, with more space available in the cabinet.

Prague PS311A

Product Specifications

Main material	SUS304
Size (H*W*D mm)	∅440*190
Surface treatment	Wire drawing
Hole size above counter basin	∅410
Hole size below counter basin	∅404
Package configuration	ST1304+X037A

Functional Selling Points

1. One-piece stretching, pragmatism;
2. Mercerization treatment, providing delicate and noble appearance;
3. Simple design, showing personality and fashion;
4. Posterior drainer set, with more space available in the cabinet.

Nano Series PS612C

Product Specifications

Main material	SUS304
Size (H*W*D mm)	760*470*210
Surface treatment	nm
Hole size above counter basin	740*450*R20
Hole size below counter basin	720*430*R20
Package configuration	ST1106+DS601 +X047

Functional Selling Points

1. One-piece stretching with SUS304 and simple large single sink, showing a classic and practical style;
2. Nano-coated surface, anti-fouling and anti-rust;
3. Super silence effect, no water noise;
4. Posterior drainer set, with more space available in the cabinet.

Nano Series PS613C

Product Specifications

Main material	SUS304
Size (H*W*D mm)	815*465*190
Surface treatment	nm
Hole size above counter basin	795*445*R60
Hole size below counter basin	790*442*R55
Package configuration	ST1106+DS602 +X047

Functional Selling Points

1. New basin bottom structure, to remove water faster water, with stronger 3D sense;
2. Simple large single sink, providing super high space utilization;
3. Nano-coated surface, anti-fouling and anti-rust;
4. Posterior drainer set, with more space available in the cabinet.

Nano Series PS6324C

Product Specifications

Main material	SUS304
Size (H*W*D mm)	820*450*200
Surface treatment	nm
Hole size above counter basin	/
Hole size below counter basin	790*420*R10
Package configuration	ST1106+DP17A+ DS603+CB603+X048

Functional Selling Points

1. One-piece stretching with SUS304 and practical double-sink design;
2. Nano-coated surface, anti-fouling and anti-rust;
3. Anti-condensation coating, effectively reducing moisture and protecting the cabinet;
4. Posterior drainer set, with more space available in the cabinet;
5. Used for integrated sink cabinet.

Weimar Series PS615A-1

Product Specifications

Main material	SUS304
Size (H*W*D mm)	760*470*215
Surface treatment	Wire drawing
Hole size above counter basin	740*450*R20
Hole size below counter basin	727*437*R15
Package configuration	ST1001+DP17A +X047

Functional Selling Points

1. One-piece stretching with SUS304 and mercerization treatment, providing delicate and noble appearance;
2. Delecate small bevel design with strong 3D sense;
3. Anti-condensation coating, effectively reducing moisture and protecting the cabinet;
4. Posterior drainer set, with more space available in the cabinet.

Nano Series PS6222C

Product Specifications

Main material	SUS304
Size (H*W*D mm)	760*470*200
Surface treatment	nm
Hole size above counter basin	740*450*R20
Hole size below counter basin	727*437*R54
Package configuration	ST1306+X048

Functional Selling Points

1. One-piece stretching with SUS304 and classic large and small sinks, showing a practical and beautiful appearance;
2. Nano-coated surface, anti-fouling and anti-rust;
3. Small bevel transition, novel appearance, and strong 3D sense;
4. Posterior drainer set, with more space available in the cabinet.

Nano Series PS6322C

Product Specifications

Main material	SUS304
Size (H*W*D mm)	860*470*200
Surface treatment	nm
Hole size above counter basin	840*450*R20
Hole size below counter basin	820*430*R30
Package configuration	ST1306+DP17A +CB603+X048

Functional Selling Points

1. One-piece stretching with SUS304, with strong load-bearing capacity;
2. Nano-coated surface, anti-fouling and anti-rust;
3. Classic large and small sinks, and reasonable washing partition, showing a practical and beautiful appearance;
4. Posterior drainer set, with more space available in the cabinet;
5. Used for integrated sink cabinet.

Nano Series PS6221C-1

Product Specifications

Main material	SUS304
Size (H*W*D mm)	760*470*200
Surface treatment	nm
Hole size above counter basin	745*455*R20
Hole size below counter basin	720*430*R30
Package configuration	ST1001+DP17A +X048

Functional Selling Points

1. One-piece stretching with SUS304, with strong load-bearing capacity;
2. Nano-coated surface, anti-fouling and anti-rust;
3. Anti-condensation coating, effectively reducing moisture and protecting the cabinet;
4. Posterior drainer set, with more space available in the cabinet;
5. Used for integrated sink cabinet.

Weimar Series PS914C

Product Specifications

Main material	SUS304
Size (H*W*D mm)	860*470*200
Surface treatment	Silky + hydrophilic nano-coating, rotary sander of basin bottom
Hole size above counter basin	835*445*R20
Hole size below counter basin	830*440*R25
Package configuration	ST1307+X047

Functional Selling Points

1. One-piece stretching with SUS304, anti-fouling and anti-rust nano coating 2.0;
2. Use the cabinet space effectively with the unique design of vacancy avoiding structure;
3. Posterior drainer set, with more space available in the cabinet.

Weimar Series PS631

Product Specifications

Main material	SUS304
Size (H*W*D mm)	620*427*205
Surface treatment	Mercerization, straight grain
Hole size above counter basin	/
Hole size below counter basin	570*377*R15
Package configuration	ST1307+X047

Functional Selling Points

1. One piece stretching with SUS304 and classic single sink design;
2. Small rounded corners providing more space, high-end appearance, not easy to hide dirt, easy to clean;
3. Mercerization treatment, providing delicate and noble appearance;
4. Only support under-the-counter installation;
5. Posterior drainer set, with more space available in the cabinet.

Weimar Series PS630

Product Specifications

Main material	SUS304
Size (H*W*D mm)	720*427*205
Surface treatment	Wire drawing
Hole size above counter basin	/
Hole size below counter basin	669.2*377*R15 (Four rounded corners)
Package configuration	ST1105+DP17A +X047

Functional Selling Points

1. One piece stretching with SUS304 and classic big single sink design;
2. Small rounded corners providing more space, high-end appearance, not easy to hide dirt, easy to clean;
3. Mercerization treatment, providing delicate and noble appearance;
4. Only support under-the-counter installation;
5. Posterior drainer set, with more space available in the cabinet.

Weimar Series PS6301

Product Specifications

Main material	SUS304
Size (H*W*D mm)	800*430*205
Surface treatment	Mercerization, straight grain
Hole size above counter basin	/
Hole size below counter basin	780*410*R30
Package configuration	ST1105+DP17A +X039A

Functional Selling Points

1. New basin bottom structure, to remove water faster water, with stronger 3D sense;
2. Simple large single sink, providing super high space utilization;
3. Nano-coated surface, anti-fouling and anti-rust;
4. Posterior drainer set, with more space available in the cabinet.

Cybertron Series PS614A

Product Specifications

Main material	SUS304
Size (H*W*D mm)	420*340*180
Surface treatment	Mercerization, straight grain
Hole size above counter basin	400*320*R20
Hole size below counter basin	380*300*R10
Package configuration	ST1001+X047

Functional Selling Points

1. SUS304 material;
2. Mellowing treatment, delicate and noble appearance, specially matched with the dining cabinet;
3. Posterior drainer set, with more space available in the cabinet.

Cybertron Series PS9110

Product Specifications

Main material	SUS304
Size (H*W*D mm)	820*450*200
Surface treatment	Mercerization, straight grain
Hole size above counter basin	/
Hole size below counter basin	795*425*R23
Package configuration	ST1306+DP17A+ CB603+X048

Functional Selling Points

1. Hand-welded molding with a high-end square shape;
2. Classic large and small sinks, showing a practical and beautiful appearance;
3. Under-counter installation recommended;
4. Posterior drainer set, with more space available in the cabinet.

Cybertron Series PS9210

Product Specifications

Main material	SUS304
Size (H*W*D mm)	820*450*170
Surface treatment	Wire drawing
Hole size above counter basin	/
Hole size below counter basin	790*420*R20
Package configuration	ST1404+DP17A+ CB603+X047 (two)

Functional Selling Points

1. Hand-welded molding with a high-end square shape;
2. Classic large and small sinks for convenient use;
3. Only for under-counter installation;
4. Posterior drainer set, with more space available in the cabinet.
5. Used for integrated sink cabinet.

Cybertron Series PS9602D

Product Specifications

Main material	SUS304
Size (H*W*D mm)	860*470*208
Surface treatment	Gun-gray PVD + nano coating
Hole size above counter basin	830*440*R10
Hole size below counter basin	830*440*R20
Package configuration	ST1305-1+DS901 +DJ6B-TC+X048

Functional Selling Points

1. Hand-welded molding and classic dual-sink design with a high-end square shape;
2. Gun-gray PVD treatment and high-end texture;
3. High-strength nano coating;
4. 3mm solid thick panel without deformation;
5. Anti-condensation coating, effectively reducing moisture and protecting the cabinet;
6. Posterior drainer set, with more space available in the cabinet.

Cybertron Series PS9603D

Product Specifications

Main material	SUS304
Size (H*W*D mm)	760O*470*213
Surface treatment	Gun-gray PVD + nano coating
Hole size above counter basin	730*440*R20
Hole size below counter basin	730*440*R20
Package configuration	ST1305-1+DS901 +DJ6B-TC+X047

Functional Selling Points

1. Hand-welded molding and classic dual-sink design with a high-end square shape;
2. Gun-gray PVD treatment and high-end texture;
3. High-strength nano coating;
4. 3mm solid thick panel without deformation;
5. Anti-condensation coating, effectively reducing moisture and protecting the cabinet;
6. Posterior drainer set, with more space available in the cabinet.

Cybertron Series PS9601A

Product Specifications

Main material	SUS304
Size (H*W*D mm)	720*450*200
Surface treatment	Wire drawing
Hole size above counter basin	/
Hole size below counter basin	690*420*R20
Package configuration	ST1306+DP17A +CB603+X047

Functional Selling Points

1. Hand-welded molding with a high-end square shape;
2. Mercerization treatment, providing delicate and noble appearance;
3. Only support under-the-counter installation;
4. Anti-condensation coating, effectively reducing moisture and protecting the cabinet;
5. Posterior drainer set, with more space available in the cabinet;
6. Offset drain hole saving cabinet space, used for integrated sink cabinet.

Cybertron Series PS915C

Product Specifications

Main material	SUS304
Size (H*W*D mm)	760*470*200
Surface treatment	nm
Hole size above counter basin	730*440*R10
Hole size below counter basin	730*440*R20
Package configuration	ST1403-1+ DS901+X047

Functional Selling Points

1. Hand-welded molding and large sink design with a high-end square shape;
2. Gun-gray PVD treatment and high-end texture;
3. High-strength nano coating;
4. 3mm solid thick panel without deformation;
5. Posterior drainer set, with more space available in the cabinet.

Cybertron Series PS9221C

Product Specifications

Main material	SUS304
Size (H*W*D mm)	860*470*200
Surface treatment	nm
Hole size above counter basin	830*440*R10
Hole size below counter basin	830*440*R20
Package configuration	ST1403-1+ DS901+X048

Functional Selling Points

1. Hand-welded molding and large sink design with a high-end square shape;
2. Gun-gray PVD treatment and high-end texture;
3. High-strength nano coating;
4. 3mm solid thick panel without deformation;
5. Posterior drainer set, with more space available in the cabinet.

Cybertron Series PS9228

Product Specifications

Main material	SUS304
Size (H*W*D mm)	860*470*200
Surface treatment	Wire drawing
Hole size above counter basin	830*440*R20
Hole size below counter basin	/
Package configuration	ST1403

Functional Selling Points

1. Hand-welded molding with a high-end square shape;
2. Configuration of disinfection and purification module, providing safe and healthy use experience;
3. Mercerization treatment, providing delicate and noble appearance;
4. Posterior drainer set, with more space available in the cabinet.

Western Kitchen Series PS971XC

Product Specifications

Main material	SUS304
Size (H*W*D mm)	440*220*180
Surface treatment	nm
Hole size above counter basin	/
Hole size below counter basin	420*200*R10
Package configuration	

Functional Selling Points

1. Hand-welded molding with SUS304;
2. Nano-coated surface, anti-fouling and anti-rust;
3. Anti-condensation coating, effectively reducing moisture and protecting the cabinet;
4. Matched with dining cabinets and western kitchens;
5. Matched with the cup washer.

Western Kitchen Series PS632XC

Product Specifications

Main material	SUS304
Size (H*W*D mm)	340*220*120
Surface treatment	nm
Hole size above counter basin	/
Hole size below counter basin	300*180*R25nm
Package configuration	

Functional Selling Points

1. One-piece stretching with SUS304;
2. Nano-coated surface, anti-fouling and anti-rust;
3. Anti-condensation coating, effectively reducing moisture and protecting the cabinet;
4. Matched with dining cabinets and western kitchens.

Sistine Series GR9702

Product Specifications

Main material	SUS304
Size (H*W*D mm)	840*470*230
Surface treatment	/
Hole size above counter basin	800*450*R20
Hole size below counter basin	790*420*R10
Package configuration	ST1305-2+ DS603+DP17A+ CB603+X062A

Functional Selling Points

1. Made of top quality quartz stone, dense structure and soft texture;
2. Environmental protection without radiation and a variety of colors, injecting new vitality into the kitchen;
3. Excellent performance with super temperature difference resistance, high temperature resistance, corrosion resistance and impact resistance;
4. Posterior drainer set, with more space available in the cabinet.

Sistine Series GR9701

Product Specifications

Main material	SUS304
Size (H*W*D mm)	760*470*230
Surface treatment	/
Hole size above counter basin	740*450*R20
Hole size below counter basin	710*420*R20
Package configuration	ST1305-2+ DS603+DP17A+ CB603+X061A

Functional Selling Points

1. Made of quality quartz stone, dense structure and soft texture;
2. Environmental protection without radiation, injecting new vitality into the kitchen;
3. Excellent performance with super temperature difference resistance, high temperature resistance, corrosion resistance and impact resistance;
4. Posterior drainer set, with more space available in the cabinet.

Sistine Series GR512

Product Specifications

Main material	Quartz stone
Size (H*W*D mm)	760*470*210
Surface treatment	/
Hole size above counter basin	740*450*R20
Hole size below counter basin	710*420*R12
Package configuration	ST1105+X047

Functional Selling Points

1. Made of top quality quartz stone, dense structure and soft texture;
2. Environmental protection without radiation, injecting new vitality into the kitchen;
3. Excellent performance with super temperature difference resistance, high temperature resistance, corrosion resistance and impact resistance;
4. Posterior drainer set, with more space available in the cabinet.

Sistine Series GR5212

Product Specifications

Main material	Quartz stone
Size (H*W*D mm)	760*470*200
Surface treatment	/
Hole size above counter basin	740*450*R15
Hole size below counter basin	710*420*R5
Package configuration	ST1105+X048

Functional Selling Points

1. Made of quality quartz stone, dense structure and soft texture;
2. Environmental protection without radiation, injecting new vitality into the kitchen;
3. Excellent performance with super temperature difference resistance, high temperature resistance, corrosion resistance and impact resistance;
4. Posterior drainer set, with more space available in the cabinet.

Facet ST1001

Product Specifications

Main material	SUS304
Size	50*237*381
Surface treatment	Wire drawing

Functional Selling Points

1. Made of SUS304 material, with environmental protection and health;
2. Simple appearance, practical;
3. Standard international famous brand valve spool.

Facet ST1105

Product Specifications

Main material	SUS304 stainless steel
Size	57*261*430
Surface treatment	Wire drawing

Functional Selling Points

1. Made of SUS304 material, with environmental protection and health;
2. Standard international famous brand valve spool;
3. Pull-out faucet, more convenient to clean;
4. Dual-mode water output, suitable for a variety of use scenarios;
5. Brushed stainless steel surface, remaining fresh for a long time.

Facet ST1106

Product Specifications

Main material	SUS304 stainless steel
Size	57*257*470
Surface treatment	Wire drawing

Functional Selling Points

1. Made of SUS304 material, with environmental protection and health;
2. Standard international famous brand valve spool;
3. Pull-out faucet, more convenient to clean;
4. Dual-mode water output, suitable for a variety of use scenarios;
5. Brushed stainless steel surface, remaining fresh for a long time.

Facet ST1304

Product Specifications

Main material	Low-lead copper (The lead content is much lower than that of the national standard)
Size	58*220*362
Surface treatment	Chromium plating

Functional Selling Points

1. Made of SUS304 material, with environmental protection and health;
2. Simple appearance, practical;
3. Standard international famous brand valve spool.

Facet ST1305-1

Product Specifications

Main material	Low-lead copper (The lead content is much lower than that of the national standard)
Size	50*250*477
Surface treatment	Black + red

Functional Selling Points

1. Made of low-lead copper material, with environmental protection and health;
2. Standard international famous brand valve spool;
3. High-polishing shape, showing an original fashion;
4. Pull-out faucet, more convenient to use.

Facet ST1306

Product Specifications

Main material	Low-lead copper (The lead content is much lower than that of the national standard)
Size	54*246*420
Surface treatment	Chromium plating

Functional Selling Points

1. Made of low-lead copper material, with environmental protection and health;
2. Standard international famous brand valve spool;
3. Water hose, more convenient to clean.

Facet ST1307

Product Specifications

Main material	Low-lead copper (The lead content is much lower than that of the national standard)
Size	50*270*415
Surface treatment	Chromium plating

Functional Selling Points

1. Made of low-lead copper material, with environmental protection and health;
2. Standard international famous brand valve spool;
3. Water hose, more convenient to clean.

Facet ST1403

Product Specifications

Main material	Low-lead copper (The lead content is much lower than that of the national standard)
Size	49*243*400
Surface treatment	Chromium plating

Functional Selling Points

1. Pull-out faucet, more convenient to clean;
2. Dual-mode water output, suitable for a variety of life scenarios;
3. Touch switch, humanized intelligence and high-end fashion;
4. Standard international famous brand valve spool.

Facet ST1403-1

Product Specifications

Main material	Low-lead copper (The lead content is much lower than that of the national standard)
Size	49*243*400
Surface treatment	Black + gold

Functional Selling Points

1. Pull-out faucet, more convenient to clean;
2. Dual-mode water output, suitable for a variety of life scenarios;
3. Touch switch, humanized intelligence and high-end fashion;
4. Standard international famous brand valve spool

Facet ST1404

Product Specifications

Main material	Low-lead copper (The lead content is much lower than that of the national standard)
Size	49*243*400
Surface treatment	Chromium plating

Functional Selling Points

1. Made of low-lead copper material, with environmental protection and health;
2. Dual-mode water output, suitable for a variety of use scenarios;
3. Pull-out faucet, more convenient to clean;
4. Standard international famous brand valve spool

Facet ST1404

Product Specifications

Main material	Low-lead copper (The lead content is much lower than that of the national standard)
Size	60*266*534
Surface treatment	Chromium plating

Functional Selling Points

1. Made of low-lead copper material, with environmental protection and health;
2. Pull-out hose, more convenient to clean;
3. Standard international famous brand valve spool

Facet ST1308

Product Specifications

Main material	Low-lead copper + zinc alloy
Size	51*193*186
Surface treatment	Black

Functional Selling Points

1. Low-lead copper water passing parts;
2. Pull-out faucet, more convenient to clean;
3. Dual-mode water output, suitable for a variety of use scenarios;

LW060/070/080/090C1-1

Product Specifications

Product category	Fashion plate-type nano dish basket 600/700/800/900
Main material	ABS, dark gray, spray coating, low-carbon steel/nano dry coating
Matched cabinet	Standard 600/700/800/900 pull-out floor cabinet
Size (W*D*H mm)	564/664/764/864*468*174
Installation size (W*D*H mm)	564/664/764/864*≥475*≥190 568/668/768/968*≥475*≥190

Note: To ensure that the 8-inch disk can be inserted, the net height should be ≥ 255mm

Functional Selling Points

1. Integrated basket design with beautiful high-end appearance;
2. Dish inserting line structure, flexible and convenient;
3. Simple structure and high cost performance;
4. Nano dry plating of on the surface of line-body plug-ins.

LT060/070/080/090C1-1

Product Specifications

Product category	Fashion plate-type nano flat net basket 600/700/800/900
Main material	ABS, dark gray, spray coating, low-carbon steel/nano dry coating
Matched cabinet	Standard 600/700/800/900 pull-out floor cabinet
Size (W*D*H mm)	564/664/764/864*468*174
Installation size (W*D*H mm)	564/664/764/864*≥475*≥190 568/668/768/968*≥475*≥190

Functional Selling Points

1. Integrated basket design with beautiful high-end appearance;
2. Dish inserting line structure, flexible and convenient;
3. Simple structure and high cost performance;
4. Nano dry plating of on the surface of line-body plug-ins.

LDO30/035/040/045C1-1

Product Specifications

Product category	Fashion plate-type nano multi-functional basket 300/350/400/450
Main material	ABS, dark gray, spray coating, low-carbon steel/nano dry coating
Matched cabinet	Standard 300/350/400/450 pull-out floor cabinet
Size (W*D*H mm)	264/314/364/414*467*527
Installation size (W*D*H mm)	264/314/364/414*≥475*≥555 268/318/368/418*≥475*≥555

Functional Selling Points

1. Integrated basket design with beautiful high-end appearance;
2. Dish inserting line structure, flexible and convenient;
3. Simple structure and high cost performance;
4. Nano dry plating of on the surface of line-body plug-ins.

LW060/070/080/090B1

Product Specifications

Product category	Second-generation stainless steel dish storage 600/700/800/900
Main material	Stainless steel/electrolysis
Matched cabinet	Standard 600/700/800/900 pull-out floor cabinet
Configuration	Water tray + cutlery box + cup holder
Size (W*D*H mm)	536/636/736/836*467*135
Installation size (W*D*H mm)	564/664/764/864*≥485*≥235 568/668/768/868*≥485*≥235

Note: To ensure that the 8-inch disk can be inserted, the net height should be ≥ 255mm

Functional Selling Points

1. Stainless steel basket, strong rust-proof performance, environmental protection and safety use;
2. Clear partition with double rows each for bowls and dishes, to enhance storage capacity;
3. Front chopstick basket for quick access;
4. Screw hidden design with an implanted decorative cover to cover the screw bracket;
5. Standard water tray to store leachate, easy to clean.

LT060/070/080/090B1

Product Specifications

Product category	Second-generation stainless steel flat net storage 600/700/800/900
Main material	Stainless steel/electrolysis
Matched cabinet	Standard 600/700/800/900 pull-out floor cabinet
Configuration	Water tray
Size (W*D*H mm)	536/636/736/836*467*135
Installation size (W*D*H mm)	564/664/764/864*≥485*≥190 568/668/768/868*≥485*≥190

Functional Selling Points

1. Stainless steel basket, strong rust-proof performance, environmental protection and safety use;
2. Large storage capacity to store cookwares, often installed in the lower space of the floor cabinet;
3. Screw hidden design with an implanted decorative cover to cover the screw bracket;
4. Standard water tray to store leachate, easy to clean.

LD030/035/040/045B1

Product Specifications

Product category	Second-generation stainless steel multi-functional basket 300/350/400/450
Main material	Stainless steel/electrolysis
Matched cabinet	Standard 300/350/400/450 floor cabinet
Configuration	Water tray
Size (W*D*H mm)	264/314/364/414*470*498
Installation size (W*D*H mm)	264/314/364/414*≥485*≥500 268/318/368/418*≥485*≥500

Functional Selling Points

1. Stainless steel basket, strong rust-proof performance, environmental protection and safety use;
2. Functional partition, tidy storage and easy cleaning;
3. Bottles, jars, knives and other items can be placed in the cabinet, and one-piece pull-out door panel is installed.

Ares 2.0 Series

Apollo Series

LA060/070/080/090TF-2

Product Specifications

Product category	Stainless steel flat net storage 600/700/800/900
Main material	Stainless steel/electrolysis
Matched cabinet	Standard 600/700/800/900 pull-out or open-type floor cabinet
Configuration	Water tray
Size (W*D*H mm)	564/664/764/864*463*168
Installation size (W*D*H mm)	564/664/764/864*≥485*≥190 568/668/768/868*≥485*≥190

Functional Selling Points

1. Stainless steel basket, strong rust-proof performance, environmental protection and safety use;
2. Clear partition with double rows each for bowls and dishes, to enhance storage capacity;
3. Standard deposit cabinet for the convenient storage of cooking utensils;
4. Standard water tray to store leachate, easy to clean.

Note: To ensure that the 8-inch disk can be inserted, the net height should be ≥ 255mm

Functional Selling Points

1. Stainless steel basket, strong rust-proof performance, environmental protection and safety use;
2. Large storage capacity to store cookwares, often installed in the lower space of the floor cabinet;
3. Standard water tray to store leachate, easy to clean.

LD030C/LD035C/LD040C/LD045B-2

Product Specifications

Product category	Stainless steel multi-functional basket 300/350/400/450
Main material	Stainless steel/electrolysis
Matched cabinet	Standard 300/350/400/450 floor cabinet
Configuration	Water tray
Size (W*D*H mm)	264/314/3641414*470*450
Installation size (W*D*H mm)	261/314/364/414*≥485*≥490 268/318/368/418*≥485*≥490

Functional Selling Points

1. Stainless steel basket, strong rust-proof performance, environmental protection and safety use;
2. Bottles, jars, knives and other items can be placed in the cabinet, and one-piece pull-out door panel is installed;
3. Standard water tray to store leachate, easy to clean.

LW060/070/080/090D-1

Product Specifications

Product category	Noble plate-type cleaning dish basket 600/700/800/900
Main material	Q235/spray coating, ABS (metal plate type)
Matched cabinet	Standard 600/700/800/900 pull-out floor cabinet
Configuration	Sterilization lamp + power supply
Size (W*D*H mm)	564/664/764/864*465*205
Installation size (W*D*H mm)	564/664/764/864*≥475*≥235 568/668/768/868*≥475*≥235

Note: To ensure that the 8-inch disk can be inserted, the net height should be ≥ 255mm

Functional Selling Points

1. Functional partition, tidy storage, easy cleaning and high grade;
2. It can stay in the Neutral salt spray for 96 hours, demonstrating strong rustproof performance;
3. UV cleaning function when closed, lighting function when opened.

LW060/070/080/090D-1

Product Specifications

Product category	Noble plate-type cleaning flat net basket 600/700/800/900

1. Functional partition, tidy storage, easy cleaning and high grade;
2. It can stay in the Neutral salt spray for 96 hours, demonstrating strong rustproof performance;
3. UV cleaning function when closed, lighting function when opened.

Elegance Series

LT060/080/090F6-1

Product Specifications

Product category	Elegant space-drawer flat net storage 600/800/900
Main material	Low-carbon steel / powder coating + oak (metal plate type)
Matched cabinet	Standard 600/700/800/900 pull-out floor cabinet
Configuration	Anti-slip mouse pattern pad
Size (W*D*H mm)	544/644/744/844*459*119
Installation size (W*D*H mm)	564/664/764/864*≥475*≥190 568/668/768/868*≈475*≥190

Functional Selling Points

1. Ultra-thin basket body, providing more storage space than the general pull-out basket or drawer, for the storage of pots and other large products;
2. Basket body made of metal plate-type oak, surface treatment with environmental protection spraying, basket bottom made of anti-slip mouse pattern pad, absolutely anti-slip, waterproof and more durable;
3. Simple and beautiful exterior;
4. Matched with 600/800/900 standard floor cabinet.

LW060/080/090F9-1

Product Specifications

Product category	Elegant space-drawer multi-functional dish storage 600/800/900
Main material	Low-carbon steel / powder coating + oak (metal plate type)
Matched cabinet	Standard 600/700/800/900 pull-out floor cabinet
Configuration	Anti-slip mouse pattern pad + a dish holder group + water tray + storage box
Size (W*D*H mm)	544/644/744/844*459*120
Installation size (W*D*H mm)	544/644/744/844*475*≥235 Note: To ensure that the 8-inch disk can be inserted, the net height should be ≥ 255mm

Functional Selling Points

1. Ultra-thin basket body, providing more storage space than the general pull-out basket or drawer, for the storage of pots and other large products;
2. Basket body made of metal plate-type oak, surface treatment with environmental protection spraying, basket bottom made of anti-slip mouse pattern pad, absolutely anti-slip, waterproof and more durable;
3. Simple and beautiful exterior;
4. Matched with 600/800/900 standard floor cabinet.

LD030/035/040/045F9-1

Product Specifications

Product category	Elegant space-drawer condiment storage 300/350/400/450
Main material	Low-carbon steel / powder coating + oak (metal plate type)
Matched cabinet	Standard 300/350/400/450 pull-out floor cabinet
Configuration	Anti-slip mouse pattern pad + a group of storage dividers
Size (W*D*H mm)	244/294/344/394*454*119
Installation size (W*D*H mm)	244/294/344/394*475*≥190 248/298/348/398≥*475*≥190

Functional Selling Points

1. Ultra-thin basket body, providing more storage space than the general pull-out basket or drawer, and a combination of dividers for storage;
2. Basket body mainly made of iron and oak, surface treatment with environmental protection spraying, basket bottom made of anti-slip mouse pattern pad, absolutely anti-slip, waterproof and more durable;
3. Simple and beautiful exterior;
4. Matched with 300/350/400/450 standard floor cabinet.

Product Specifications

Product category	Elegant wall cabinet basket 600/900
Main material	Low-carbon steel / powder coating + oak (metal plate type)
Matched cabinet	Standard 600/900 open-type or flip-up door wall cabinet
Configuration	Double-layer basket + anti-slip mouse pattern pad
Size (W*D*H mm)	562/862*257*544
Installation size (W*D*H mm)	(564-568)*≥300*≥650 (864-868) *≥300*≥650

Functional Selling Points

1. Elegant wall cabinet double-layer basket: wall cabinet storage solutions to perfectly solve the problem of hard access to items placed in the depth of the wall cabinet;
2. Basket body made of metal plate-type oak, surface treatment with environmental protection spraying, basket bottom made of anti-slip mouse pattern pad, absolutely anti-slip, waterproof and more durable;
3. Simple and beautiful exterior;
4. Matched with 600/900 wall cabinet.

LZ900FR9-1/LZ900FL9-1

Product Specifications

Product category	Elegant Lazy Susan 900
Main material	Low-carbon steel / powder coating + oak (metal plate type)
Matched cabinet	Standard 900 corner cabinet with 450mm-wide door
Configuration	Double-layer basket + anti-slip mouse pattern pad
Size (W*D*H mm)	(864-968)*(520-560)*530
Installation size (W*D*H mm)	(864-868)*≥(520-560)*≥600

Functional Selling Points

1. Perfect corner cabinet storage solution providing the best use of space;
2. Basket body made of metal plate-type oak, surface treatment with environmental protection spraying, basket bottom made of anti-slip mouse pattern pad, absolutely anti-slip, waterproof and more durable;
3. Simple and beautiful appearance.

LK0045/60F9-1

Product Specifications

Product category	Elegant floor cabinet linked-basket 600
Main material	Low-carbon steel / powder coating + oak (metal plate type)
Matched cabinet	Standard 450/600 floor cabinet (Hinge-opened type) Hinge opening angle of more than 165 degrees
Configuration	Double-layer basket + anti-slip mouse pattern pad
Size (W*D*H mm)	370/520*480*614
Installation size (W*D*H mm)	414/418*≥490*≥632 564/568*≥490*≥632

Functional Selling Points

1. Simple and beautiful exterior;
2. Matched with 450/600 standard floor cabinet;
3. Hinge opening angle of more than 165 degrees.

LK045/060HF9-1

Product Specifications

Product category	Elegant high cabinet linked-basket 450/600
Main material	Low-carbon steel / powder coating (metal plate type)
Matched cabinet	Standard 450/600 high cabinet (hinge-opened type) hinge opening angle of more than 165 degree
Configuration	Five-layer basket + anti-slip mouse pattern pad
Size (W*D*H mm)	355/505*487*1720-2020
Installation size (W*D*H mm)	(414/418)*≥490*1720-2020 (564/568)*≥490*1720-2020

Functional Selling Points

1. Ultra-thin basket body, providing more storage space than the general pull-out basket, an effective solution of the high basket-linked cabinet;
2. Basket body made of metal plate-type oak, surface treatment with environmental protection spraying, basket bottom made of anti-slip mouse pattern pad, absolutely anti-slip, waterproof and more durable;
3. Simple and beautiful exterior;
4. Matched with 450/600 standard high cabinet;
5. Hinge opening angle of more than 155 degrees.

LK045/060MF9-1

Product Specifications

Product category	Elegant middle cabinet linked-basket 450/600
Main material	Low-carbon steel / powder coating + oak (metal plate type)
Matched cabinet	Standard 450/600 high cabinet (hinge-opened type) hinge opening angle of more than 165 degree
Configuration	Four-layer basket + anti-slip mouse pattern pad
Size (W*D*H mm)	355/505*487*(1340-1660)
Installation size (W*D*H mm)	(414/418) *≥490*(1340-1660) (564/568) *≥490*(1340-1660)

Functional Selling Points

1. Ultra-thin basket body, providing more storage space than the general pull-out basket, an effective solution of the high basket-linked cabinet;
2. Basket body made of metal plate-type oak, surface treatment with environmental protection spraying, basket bottom made of anti-slip mouse pattern pad, absolutely anti-slip, waterproof and more durable;
3. Simple and beautiful exterior;
4. Matched with 450/600 standard high cabinet;
5. Hinge opening angle of more than 155 degrees.

LT060/080MF9-1

Product Specifications

Product category	Elegant solid wood utensil divider box
Main material	Low-carbon steel / powder coating + acrylic panels
Matched cabinet	Standard 600/800 cabinet (Hinge-opened type/ open-type cabinet)
Configuration	Oak utensil dividers + anti-slip mouse pattern pad
Size (W*D*H mm)	531/731*461*95
Installation size (W*D*H mm)	(564/568)*≥495*≥135 (764/768)*≥495*≥135

Functional Selling Points

1. Ultra-thin basket body, providing more storage space than the general pull-out basket or drawer, and a combination of dividers for storage;
2. Basket body made of metal plate-type oak, surface treatment with environmental protection spraying, basket bottom made of anti-slip mouse pattern pad, absolutely anti-slip, waterproof and more durable;
3. Simple and beautiful exterior;
4. Matched with 600/800 floor cabinet/ high and middle cabinet.

LK045/060HF9-1

Product Specifications

Product category	Elegant tall pull-out basket
Main material	Low-carbon steel / powder coating + oak (metal plate type)
Matched cabinet	Standard 300 high cabinet
Configuration	Six-layer basket + anti-slip pad
Size (W*D*H mm)	264*510* (1960-2260mm)
Installation size (W*D*H mm)	264/268*≥510*≥1960

Functional Selling Points

1. Ultra-thin basket body, providing more storage space than the general pull-out basket, an effective solution of the high basket-linked cabinet;
2. Basket body made of metal plate-type oak, surface treatment with environmental protection spraying, basket bottom made of anti-slip mouse pattern pad, absolutely anti-slip, waterproof and more durable;
3. Simple and beautiful exterior;
4. Matched with 450/600 standard high cabinet;
5. Hinge opening angle of more than 155 degrees.

Functional Storage Series

LN060/090DC5

Product Specifications

Product category	Wall cabinet bottom shelf (single-layer) 600/900
Main material	Low-carbon steel / powder coating + acrylic panels
Matched cabinet	Bottom of the wall cabinet
Configuration	Single-layer basket
Size (W*D*H mm)	600/900*300*300mm
Installation size (W*D*H mm)	600/900*300*80(closed) 600/900*300*300(open)

Functional Selling Points

1. When in use, pull down, when not in use, easy to fold, without affecting the space above the table;
2. Installed at the bottom of the wall cabinet, for the temporal placement of dishes, food, vegetables, etc., easy access.

LN060/090DF6

Product Specifications

Product category	Wall cabinet bottom shelf (double-layer) 600/900
Main material	Aluminium/ oxidation + ABS
Matched cabinet	Bottom of the wall cabinet
Configuration	Double-layer basket
Size (W*D*H mm)	590/890*210*448mm
Installation size (W*D*H mm)	590/890*210*90(closed) 590/890*210*448(open)

Functional Selling Points

1. When in use, pull down, when not in use, easy to fold, without affecting the space above the table;
2. Installed at the bottom of the wall cabinet, for the temporal placement of dishes, food, vegetables, etc., easy access.
3. Double-layer storage, providing more space.

LN060/090D4

Product Specifications

Product category	Down-flip storage box 600/900
Main material	Aluminium alloy/Q235, spray coating, ABS
Matched cabinet	Bottom of the 600/900 wall cabinet
Configuration	/
Size (W*D*H mm)	600/900*310*165
Installation size (W*D*H mm)	600/900*≥310*≥420

Functional Selling Points

1. Closed storage, free from kitchen grease;
2. Aluminium alloy material products, with assured quality;
3. 30,000 times switching maximum load-bearing weight of 10KG, and solid structure without shaking feeling.

LN045/060DF9

Product Specifications

Product category	SUSPA back pull-out basket
Main material	Aluminium alloy/ oxidation + PP + PA
Matched cabinet	450/600 wall cabinet
Configuration	/
Size (W*D*H mm)	398/548*113*722
Installation size (W*D*H mm)	414/418*≥135*≥680 564/568*≥135*≥680

Functional Selling Points

1. Aluminium alloy oxidation material, light quality and corrosion resistance;
2. Back pull-down type, easy access, smooth and silent pull-out;
3. Hidden design, simple and beautiful.

LK060/080/090QA2

Product Specifications

Product category	wall cabinet linked basket 600/800/900
Main material	Low-carbon steel, spray coating, dark grey
Matched cabinet	Standard 600/800/900 open-type or flip-up door wall cabinet
Configuration	Double-layer basket
Size (W*D*H mm)	564/764/864*260*547
Installation size (W*D*H mm)	564//764/864*≥300*≥650 568//768/868*≥300*≥650

Functional Selling Points

1. Basket bottom made of diamond-shaped anti-slip pads, absolutely anti-slip, waterproof and more durable;
2. Double-layer basket, easy to pull out, perfect solution for wall cabinet storage of common dry goods.

LK060/090QD9

Product Specifications

Product category	Metal plate-type wall cabinet basket
Main material	Low-carbon steel/ spray coating + PS
Matched cabinet	Standard wall cabinet 600/900
Configuration	Double-layer basket
Size (W*D*H mm)	564/864*267/530
Installation size (W*D*H mm)	564/568*≥300*≥650 864/868*≥300*≥650

Functional Selling Points

1. Plate type, high-end quality, standard anti-slip pad, anti-slip, silent, easy to clean;
2. Unique damping design allowing air hovering and smooth and silent pull-out;
3. Automatic rebound for light loads and return to position after gentle lifting for heavy loads.

Functional Storage Series

LK060H-2A

Product Specifications

Product category	High cabinet pull-down basket 600
Main material	Low-carbon steel, spray coating, PP, dark grey
Matched cabinet	Upper space of 600 wide electrical cabinet
Configuration	Double-layer basket
Size (W*D*H mm)	564*455*545
Installation size (W*D*H mm)	564/568*≥500*≥650

Functional Selling Points

1. Basket bottom made of diamond-shaped anti-slip pads, absolutely anti-slip, waterproof and more durable;
2. Matched with the upper space of the electrical cabinet, solving the storage problem of the upper space of the electrical cabinet;
3. Linkage pull-out. Weight-bearing door panels without deformation, with extra large capacity.

LK060HD9

Product Specifications

Product category	High cabinet two-level pull-down basket 600
Main material	Low-carbon steel/Q235/ABS/ spray coating
Matched cabinet	Standard 600 high cabinet (upper space of the electrical cabinet)
Configuration	Double-layer basket + interior basket
Size (W*D*H mm)	564*480*497
Installation size (W*D*H mm)	564/568*≥490≥500

Functional Selling Points

1. Two-level pull-down space to store Transformers;
2. Protective net configuration, safe and durable;
3. Pull down 0.6m to easily get items from high places.

Functional Storage Series

LK045A1

Product Specifications

Product category	Nano door-linked floor cabinet
Main material	Low-carbon steel/ spray coating + ABS
Matched cabinet	450 floor cabinet
Configuration	Basket*1 + storage box*1 + hook
Size (W*D*H mm)	500*142*586mm
Installation size (W*D*H mm)	414/418*≥150*=590mm

Functional Selling Points

1. External storage layer, storage partition;
2. Surface treatment of nano dry plating, 96-hour neutral salt spray test;
3. Matched with 450 floor cabinets, door storage, and 175mm+ inward reduction of the laminate width;
4. Mounting structure in the cabinet without weight-bearing of the door.

LK060A-1

Product Specifications

Product category	Metal plate-type floor cabinet linked basket
Main material	Low-carbon steel/ spray coating + PS
Matched cabinet	600 floor cabinet
Configuration	Three-layer basket inside the cabinet + three-layer basket on the door
Size (W*D*H mm)	544*502*517
Installation size (W*D*H mm)	564/568*≥510*≥550

Functional Selling Points

1. External storage layer, storage partition;
2. Surface treatment of nano dry plating, 96-hour neutral salt spray test;
3. Matched with 450 floor cabinets, door storage, and 175mm+ inward reduction of the laminate width;
4. Mounting structure in the cabinet without weight-bearing of the door.

LK045HA1

Product Specifications

Product category	Nano door-linked high cabinet
Main material	Low-carbon steel/ spray coating + ABS
Matched cabinet	450 high cabinet
Configuration	Basket*4 + storage box + hook*2
Size (W*D*H mm)	500*142*1792mm
Installation size (W*D*H mm)	414/418*≥150*≥1800mm

Functional Selling Points

1. External storage layer, storage partition;
2. Surface treatment of nano dry plating, 96-hour neutral salt spray test;
3. Matched with 450 high cabinets, door storage, and 175mm+ inward reduction of the laminate width;
4. Mounting structure in the cabinet without weight-bearing of the door.

LA060B2

Product Specifications

Product category	Fruit and vegetable storage basket 600
Main material	Q235/spray coating, PP
Matched cabinet	Standard 600 pull-out/ hinged door floor cabinet
Size (W*D*H mm)	564*465*240
Installation size (W*D*H mm)	564/568*≥475*≥260

Functional Selling Points

1. Aluminium alloy oxidation material, light quality and corrosion resistance;
2. Back pull-down type, easy access, smooth and silent pull-out;
3. Hidden design, simple and beautiful.

LS040B1

Product Specifications

Product category	Toiletries door storage rack
Main material	Q235/spray coating, ABS
Matched cabinet	900-1200 hinge door sink cabinet
Size (W*D*H mm)	(Single door 450-600) 502*123*560
Installation size (W*D*H mm)	414-568*≥115*≥560

Functional Selling Points

1. Small size, shallow depth, reasonable arrangement of the remaining space in the sink cabinet;
2. Weight-bearing support base in the cabinet without weight-bearing of the door, to effectively avoid door deformation;
3. Adjustable upper-layer height, suitable for various kinds of sink cabinets.

LS045D5

Product Specifications

Product category	Toiletries door storage rack
Main material	Q235/spray coating, ABS
Matched cabinet	900-1200 hinge door sink cabinet
Size (W*D*H mm)	(Single door 450-600) 368*71*600
Installation size (W*D*H mm)	414-568*≥100*≥600

Functional Selling Points

1. Small size, shallow depth, reasonable arrangement of the remaining space in the sink cabinet;
2. Door storage for small tools, load capacity up to 10KG;
3. Flexible hook movement, suitable for a variety of sink cabinets.

Drawer Divider Series

CT050/060/090/100WPF

Product Specifications

Product category	Combined low top drawer accessories
Main material	Aluminium alloy+ plastic
Size	382/482/782/882*472*50
Matched drawer	Blum square rod drawer PWWWC001GA and built-in square rod drawer PWWWN001GA Hettich luxury drawer PWWWC003GA and built-in PWWWN003GA

Functional Selling Points

1. Functional modules can be freely combined for simple installation and flexible regulation of storage space in the cabinet;
2. Beautiful Aluminium alloy spraying;
3. Clear classification of items.

CT050/060/090/100WFF

Product Specifications

Product category	Combined low top drawer accessories
Main material	Aluminium alloy+ plastic
Size	382/482/782/882*472*50
Matched drawer	Blum square rod drawer PWWWC001GC Hettich luxury drawer PWWWC003GC/PWWWC003GD

Functional Selling Points

1. Functional modules can be freely combined for simple installation and flexible regulation of storage space in the cabinet;
2. Beautiful Aluminium alloy spraying;
3. Clear classification of items.

WALL STORAGE

GJF9-TC

Product Specifications

Product category	Elegant wall storage set
Main material	Low-carbon steel/ spray coating
Hanging rod length	Storage shelf*1+magnetic wooden knife holder*1+stainless steel chopstick box*1+hooks*2+plate*2 +0.9m hanging rod

Functional Selling Points

1. Easy-to-clean plate and multifunction;
2. one-piece moulding with cold stamping and black walnut decorative strip, demonstrating more high-end style;
3. Suitable for various design styles of the kitchen.

GJ010

Product Specifications

Product category	Multimedia intelligent wall storage (lite version)
Main material	Aluminium alloy/ low-carbon steel/ spray coating
Hanging rod length	0.9m

Functional Selling Points

1. Socket, audio, lighting, intelligent display and many other functional modules;
2. Integration of lighting control and wall storage;
3. Wall storage made by iron toner craft pendant, presenting high-end appearance.

GJO-TC

Product Specifications

Product category	Wall storage set O
Main material	Stainless steel/electrolysis
Hanging rod length	0.6m

Functional Selling Points

1. Short size, flexible combination;
2. Stainless steel material with strong rust-proof performance;
3. Matched with both sides of the sink for storage.

GJP-TC

Product Specifications

Product category	Wall storage set P
Main material	Stainless steel/electrolysis
Hanging rod length	0.6m

Functional Selling Points

1. Short size, flexible combination;
2. Stainless steel material with strong rust-proof performance;
3. Matched with both sides of the sink for storage.

GWS-TC

Product Specifications

Product category	Kitchen wall mounted storage set
Main material	Q195 low-carbon steel/ spray coating
Hanging rod length	Hanging bar with hooks*1, storage rack for seasoning bottles and jars*1, knife rack + chopstick box*1, pot rack and chopping board rack*2 and wall basket*1

Functional Selling Points

1. Wall storage for kitchen utensils, wall mounted hardware storage kit including the wall mounted seasoning bottle rack, knife rack, chopsticks box, pot rack and chopping board rack;
2. Hardware technology, wall mounting without punching holes, simple operation;
3. Simple and beautiful exterior;
4. Reasonable use of walls and wall corners.

GWW-TC

Product Specifications

Product category	Kitchen wall mounted storage set (lite version)
Main material	Q195 low-carbon steel/ spray coating
Hanging rod length	Storage rack for seasoning bottles and jars (40*13.5*7.5CM) Knife rack and chopsticks box (18*9*20CM)

Functional Selling Points

1. Wall mounted hardware storage kit including wall mounted seasoning bottle rack, knife rack and chopsticks box;
2. Hardware technology, wall mounting without punching holes, simple operation;
3. Simple and beautiful exterior;
4. Reasonable use of walls and wall corners.

MT007

Product Specifications

Product category	Pull-out rice box
Main material	Color steel plate
Matched cabinet	Standard 300 pull-out floor cabinet
Capacity	30KG
Configuration	18" Blum half-pull side-mounted rail
Size(W*D*H mm)	240*497*565
Installation size (W*D*H mm)	264/268*≥510*≥575

Functional Selling Points

1. Matched with 300 pull-out cabinets, double-layer box with imported Blum track, more than 10W times pull-out with smooth and silent effect;
2. Insect-proof, moisture-proof, fine workmanship, good sealing performance, easy to store, no insects or ants entering the storage box, more isolated from the air, date indicator function to easily record the date of rice storage, built-in reset handle to return its original position at the touch of a button in case of rice stuck in the mechanism.

MT008

Product Specifications

Product category	Pull-out rice box
Main material	Q195 steel + PP plastic + ABS
Matched cabinet	Standard 600 pull-out floor cabinet
Capacity	/
Configuration	18" Blum half-pull side-mounted rail
Size(W*D*H mm)	529*467.4*237
Installation size (W*D*H mm)	564/568*≥500*≥260

Functional Selling Points

1. Matched with 600 pull-out cabinets, double-layer box with imported Blum track, more than 10W times pull-out with smooth and silent effect;
2. Used for storing all kinds of cereals and grains with good sealing performance, moisture-proof and insect-proof, easy to switch, convenient access.

WT010

Product Specifications

Product category	Pull-out rice box
Main material	Q235/ABS/PP/PS/PA6
Matched cabinet	Standard 600 floor cabinet
Size(W*D*H mm)	564/568*460*212
Installation size (W*D*H mm)	564/568≥*460*≥212

Functional Selling Points

1. Easy insertion of 600-wide cabinets;
2. Four buckets sorted for waste classification and storage, with lids for easy extraction and cleaning.

WT011

Product Specifications

Product category	Pull-out rice box
Main material	Low-carbon steel + PP
Matched cabinet	900-1200 sink cabinet *720 mm high
Size(W*D*H mm)	247*452.6*360
Installation size (W*D*H mm)	/

Functional Selling Points

1. Easy insertion of 900-1200-wide cabinets;
2. Used for the classification and pull-out storage of waste.

KITCHEN SUPPLIES

Kitchen Accessories   Kitchen Supplies

GZ6701-TC

Product Specifications

Product category	Oppein cookware 2-piece set
Main material	Aluminium alloy + Teflon coating
Net weight (kg)	Wok 1.6kg, soup pot 1.2kg
Gross weight (kg)	4.7kg
Product configuration	Wok, soup pot
Size (H*W*D mm)	Wok 32cm, soup pot 24cm
Gift box size (H*W*D mm)	345*290*510mm
External box size (H*W*D mm)	720*530*610mm
Number of boxes	4 sets/ box

Functional Selling Points

1. Original beautiful appearance design;
2. Non-stick Teflon material, abrasion resistance and heat resistance;
3. One-piece stretching, no riveting process, no dead angle, easy to clean;
4. Multi-layer base, suitable for various cookers, easy to use.

GJ807A-1

Product Specifications

Product category	Oppein stainless steel wok
Main material	304 stainless steel, bakelite, tempered glass
Net weight (kg)	2.82kg
Gross weight (kg)	3.7kg
Product configuration	Glass lid, stainless steel body
Size (H*W*D mm)	320*94mm
Gift box size (H*W*D mm)	590*128*380mm
External box size (H*W*D mm)	596*395*776
Number of boxes	6 sets/ box

Functional Selling Points

1. Adopt honeycomb non-stick pattern and nano non-stick technology to achieve physical anti-adhesion and thus greatly reduce oil smoke;
2. 2200 honeycombs, increased honeycomb density, improved anti-adhesion, open honeycomb PRO without residue;
3. Easy to clean with one wipe, covered with honeycomb texture;
4. All stainless steel casting handle, fire resistance and high temperature resistance, sturdy and beautiful;
5. Micro-pressure lid for more pressure and faster cooking;
6. Three-layer stainless steel pressed steel under 200 tons of heavy pressure, without deformation at high temperature, thick and durable;
7. 304 food-grade composite steel with the thermal conductivity faster than that of iron; instant heating, energy saving and time saving.

GZ6902-TC

Product Specifications

Product category	Oppein cookware 3-piece set
Main material	304 stainless steel
Net weight (kg)	Wok 2.65kg, fry pan 1.23kg, milk pot 1.09kg
Gross weight (kg)	5.5kg
Product configuration	Wok, fry pan, milk pot
Size (H*W*D mm)	16cm milk pot: ø16*9cm 28cm fry pan: ø28*5.5cm 30cm fry pan: ø30*9cm
Gift box size (H*W*D mm)	455*223*535mm
External box size (H*W*D mm)	470*430*500mm
Number of boxes	2 sets/ box

Functional Selling Points

1. One-piece non-stick pan with three-layer steel, for even heating, less oil smoke produced, durable;
2. Strong scratch and abrasion resistance, stronger anti-adhesion;
3. Inner surface coated with a fine and smooth food-grade non-stick coating, providing a non-stick cooking experience;
4. Transparent rigid tempered glass lid with durable stainless steel edge, providing visual cooking pleasure;
5. Rapid and uniform magnetic heat conduction with three-layer steel, applicable for burners and induction cookers;

GZ706A-1

Product Specifications

Product category	Oppein cast iron single-handle wok (32cm)
Main material	Body material: Pig iron; Lid material: 304 stainless steel; Material of ear handle and handle: 202 stainless steel + silicone
Net weight (kg)	3kg
Gross weight (kg)	4kg
Product configuration	Stainless steel lid, cast iron body
Size (H*W*D mm)	320*215*613mm
Gift box size (H*W*D mm)	635*390*210mm
External box size (H*W*D mm)	660*430*450mm
Number of boxes	2 sets/ box

Functional Selling Points

1. Iron cookwares can be heated over a high flame, with aromatic stir-fry, low nutrient loss, wear-resistance and high durability, without fear of collision;
2. One-piece moulded body, made by high-purity pig iron die-casting, surface structure reorganized with a special process to form an oil film over a long time of use, making it less likely to be sticky;
3. Unique sealing design of steel arched lid for steam reflux, to maximize the retained food nutrients and make dishes more delicious and healthy;
4. Designed according to human body mechanics and heat transfer, built-in silicone handle connected to the U-shape body to minimise heat transfer, providing comfortable grip feeling;
5. Anti-drip pot edge design to keep the table and pan clean.

GZ6602D

Product Specifications

Product category	Oppein cast iron enamel pan
Main material	Iron
Net weight (kg)	5.8KG
Gross weight (kg)	6.3KG
Product configuration	Cast iron lid, cast iron body
Size (H*W*D mm)	240*118mm
Gift box size (H*W*D mm)	387*198*300mm
External box size (H*W*D mm)	407*315*425mm
Number of boxes	2pcs/ box

Functional Selling Points

1. Natural enamel material cast in one time, without interface, easy to clean, suitable for a variety of cookers and ovens, rapid heat transfer, lasting heat preservation, solid and durable;
2. "Self-circulating water bead design" facilitating water circulation and locking nutrients;
3. Safety and hygiene: Unique enamel porcelain, good effect of the heat preservation and refrigeration of food, strong resistance to acid and alkali;
4. Energy saving: Allow for low to medium heat cooking to save energy;
5. Healthy and keep original food flavour: The tightly fitting lid locks in heat and water vapour to maintain the original food flavour and achieve healthy cooking with less oil smoke;
6. Multi-purpose pot: steaming, boiling, stewing, baking, frying and deep-frying to meet your various needs, applicable for the oven.

GZ6801C

Product Specifications

Product category	Oppein stainless steel soup pot
Main material	304 stainless steel
Net weight (kg)	2.2KG
Gross weight (kg)	2.8KG
Product configuration	Glass lid, stainless steel body
Size (H*W*D mm)	240*120mm
Gift box size (H*W*D mm)	400*180*320mm
External box size (H*W*D mm)	415*195*660mm
Number of boxes	4pcs/ box

Functional Selling Points

1. Quality pot without coating, no coating healthy material;
2. Rapid heat conduction to evenly heat the food;
3. German spot welding technology, no rivet design, all steel handle, solid and easy to clean;
4. Tempered glass lid, enabling you to enjoy visual cooking fun;
5. Tightly closed but not sealed, fitting the pot opening edge without water dripping, micro-pressure simmering to make the soup fragrant.

GZ6801N

Product Specifications

Product category	Oppein stainless steel milk pot set (one-layer steamer)
Main material	304 stainless steel
Net weight (kg)	1.42KG
Gross weight (kg)	2.04KG
Product configuration	Glass lid, 304 stainless steel steamer, 304 stainless steel body
Size (H*W*D mm)	160*235mm
Gift box size (H*W*D mm)	410*220*205mm
External box size (H*W*D mm)	480*435*455mn
Number of boxes	6pcs/ box

Functional Selling Points

1. 304 food-grade stainless steel material, safe and healthy;
2. Environmental friendly high-temperature spraying, beautiful appearance, not easy for paint to fall off;
3. Anti-scalding handle, ergonomic design, comfortable grip;
4. Multi-functional steamer for the top steaming and bottom cooking.

DJ6C-TC

Product Specifications

Product category	Oppein Berlin 5-piece knife set
Main material	5cr15MOV, fraxinus mandshurica
Net weight (kg)	2.9kg
Gross weight (kg)	3.8kg
Product configuration	Slicing knife, chef knife, all-purpose knife, fruit knife, knife holder
Size (H*W*D mm)	Slicing knife: 82*306mm, chef knife: 47*300mm, all-purpose knife: 42*330mm, fruit knife: 30*247mm, knife holder: 145*145*242mm
Gift box size (H*W*D mm)	275*215*391mm
External box size (H*W*D mm)	556*436*406mm
Number of boxes	4 sets/ box

Functional Selling Points

1. Blades made of 5cr15MOV steel better than general material, more than doubled sharpness and durability of blades, making it easy to cut beef tendon;
2. Blade edging angle of 16 degrees. The smaller the angle is, the sharper the knife is;
3. Special high-precision double-sided bevel grinding treatment of the knife surface. The smaller the angle is, the lower the resistance is to cutting food;
4. Precious fraxinus mandshurica knife holder, tough and extremely flexible, sunken design, stable knife body when being inserted into the slot;
5. Casting handle with high hardness, dense structure, abrasion resistance and anti-corrosion, mirror polishing, human body mechanics design, comfortable grip.
